BIO

NICO CASSOU

Nico Cassou is a producer and DJ. Born in Buenos Aires, he is currently based in General Pico, La Pampa. His music revolves around one idea: Deep Sounds. Hypnotic grooves built for the dancefloor, with commanding low end, dark atmospheres and the freedom to move between styles without settling into any one of them. His influences range from The Chemical Brothers, his first contact with electronic music, to John Digweed, his greatest reference, alongside Richie Hawtin, Hernán Cattaneo and Jamie Jones.

He has been behind the decks since 2010. He played several clubs in the Buenos Aires underground scene, including Voodoo, where he shared the line-up with David Calo at the Brain Damage party, and in 2013 he was the resident DJ at a beach club in Praia da Ferradura, Búzios (Brazil). Then came a period of searching: he travelled through Europe, experienced the nightlife of Ibiza and Barcelona up close and soaked up new sounds. From there he threw himself fully into the studio, where he gradually shaped his own sound, and today he returns to the dancefloor with that work. In La Pampa he has played the Code, Midy and Aurora parties in General Pico, and recently Zyklus in Santa Rosa, alongside Nacho Bolognani.
